[Docket No. FAA-2018-0369; Airspace Docket No. 18-ASO-8]

RIN 2120-AA66

Proposed Amendment of Class E Airspace, Augusta, GA, and Proposed Establishment of Class E Airspace, Waynesboro, GA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to amend Class E airspace extending upward from 700 feet above the surface in Augusta, GA, by recognizing the name change of Augusta Regional Airport at Bush Field (formerly Augusta Regional at Bush Field Airport); removing Burke County Airport and Millen Airport from the airspace designation and establishing these two airports under Waynesboro, GA, designation; and updating the geographic coordinates of Daniel Field, Augusta, GA, and Millen Airport, Waynesboro, GA. This action would accommodate airspace reconfiguration due to the decommissioning of the Millen non-directional radio beacon (NDB) and cancellation of the NDB approach at Millen Airport. Controlled airspace is necessary for the safety and management of instrument flight rules (IFR) operations at these airports.

DATES: Comments must be received on or before [INSERT DATE 45 DAYS AFTER THE DATE OF PUBLICATION IN THE FEDERAL REGISTER].

SUPPLEMENTARY INFORMATION:**Authority for this Rulemaking**

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would amend Class E airspace at Augusta Regional Airport at Bush Field, Augusta, GA, and establish Class E airspace at Burke County Airport and Millen Airport, Waynesboro, GA, to support IFR operations at these airports.

Comments Invited

Interested persons are invited to comment on this proposed rulemaking by submitting such written data, views, or arguments, as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal.

Communications should identify both docket numbers (Docket No. FAA-2018-0369 and Airspace Docket No. 18-ASO-8) and be submitted in triplicate to DOT Docket Operations (see “ADDRESSES” section for the address and phone number.) You may also submit comments through the internet at <http://www.regulations.gov>.

Persons wishing the FAA to acknowledge receipt of their comments on this action must submit with those comments a self-addressed stamped postcard on which the following statement is made: “Comments to FAA Docket No. FAA-2018-0369; Airspace Docket No. 18-ASO-8.” The postcard will be date/time stamped and returned to the commenter.

All communications received before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this document may be changed in light of the comments received. All comments submitted will be available for examination in the public docket both before and after the comment closing date. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

An electronic copy of this document may be downloaded through the internet at <http://www.regulations.gov>. Recently published rulemaking documents can also be accessed through the FAA’s web page at http://www.faa.gov/air_traffic/publications/airspace_amendments/.

You may review the public docket containing the proposal, any comments received and any final disposition in person in the Dockets Office (see the ADDRESSES section for address and phone number) between 9:00 a.m. and 5:00 p.m., Monday through Friday, except federal holidays. An informal docket may also be examined between 8:00 a.m. and 4:30 p.m., Monday through Friday, except federal holidays at the office of the Eastern Service Center, Federal Aviation Administration, room 350, 1701 Columbia Avenue, College Park, GA 30337.

Availability and Summary of Documents for Incorporation by Reference

This document proposes to amend FAA Order 7400.11B, Airspace Designations and Reporting Points, dated August 3, 2017, and effective September 15, 2017. FAA Order 7400.11B is publicly available as listed in the ADDRESSES section of this document. FAA Order 7400.11B lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Proposal

The FAA proposes an amendment to Title 14, Code of Federal Regulations (14 CFR) part 71 to amend Class E airspace extending upward from 700 feet or more above the surface at Augusta Regional Airport at Bush Field, Augusta, GA, by updating the airport name (formerly Augusta Regional at Bush Field Airport); amending the geographic coordinates of Daniel Field to coincide with the FAA's aeronautical database; and by removing Burke County Airport and Millen Airport from the Augusta, GA designation and re-establishing

these two airports under Waynesboro, GA designation due to the decommissioning of the Millen NDB, and cancellation of the NDB approach.

Class E airspace extending upward from 700 feet above the surface would be established at Burke County Airport, Waynesboro, GA within a 6.7-mile (from a 6.6-mile) radius of the airport.

Class E airspace extending upward from 700 feet above the surface would be established at Millen airport within a 7.4-mile (from a 7.3-mile) radius of the airport. The geographic coordinates would be adjusted to be in concert with the FAA's aeronautical database.

The changes would enhance the safety and management of IFR operations at these airports.

Class E airspace designations are published in Paragraph 6005, of FAA Order 7400.11B, dated August 3, 2017, and effective September 15, 2017, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a

routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures” prior to any FAA final regulatory action.
